JACKSON HOLE, WY & TETON VALLEY, ID

# REUSE RESOURCE GUIDE

RESALE • REPAIR • REPURPOSE • RESCUE • DONATE FOR REUSE  
ON BOTH SIDES OF THE TETONS!

BROUGHT TO YOU BY

ReStore

## REUSE IS THE 2ND OF THE 3 R'S.

The R for when it's too late to Reduce but maybe too early to Recycle. It's the time for creativity and innovation. A time to rely on the resourcefulness within ourselves, our households, our businesses and our community. By doing so, we have the opportunity to extend the life of a product in its original form, for as long as possible, before expending the energy and resources to discard it or turn it into something else.

Teton County, Wyoming and Teton Valley, Idaho possess a wealth of Reuse opportunities within the businesses and organizations that offer resale, donation, repair, rescue and other services. This publication, the First Annual Regional Reuse Resource Guide, is intended to provide a centralized listing of these opportunities and the necessary information to make the most of them.

Whether it's a vintage piece of furniture, a well-worn pair of jeans, a broken down bike or even a used vinyl sign – before tossing it into the recycling or the trash - consider ways in which it could be repaired, repurposed, resold, or otherwise reused. **Thank you for extending the life of materials in our community and keeping them out of the landfill!**

### TABLE OF REUSE

# TETON COUNTY INTEGRATED SOLID WASTE AND RECYCLING *REMINDS YOU TO...*

**REDUCE** *Use less!*

**REUSE** *Get creative and make things last!*

*When it's too late to Reduce but maybe too early to Recycle. It's the time for creativity and innovation, when we rely on the resourcefulness within ourselves and our community. By doing so, we extend the life of a product in its original form, for as long as possible, before expending the energy to turn it into something else.*

**RECYCLE** *Save energy and conserve resources!*

*After reducing and reusing, materials such as plastic, metal, and paper can be collected and made into new materials. This process, called recycling, saves energy and conserves natural resources.*

# Teton Valley Community Recycling

Transforming waste to resources

**Our Mission:** To develop ethical waste reduction solutions that are financially and environmentally sound for our community.

**Our Vision:** A healthy community that reduces, reuses, recycles, and rethinks its way towards zero waste.

**Our Position:** Transforming Waste into Resources.

Teton Valley Community Recycling (TVCR) has been the advocate for integrated waste management, municipal composting, DEQ compliance, waste reduction and recycling in the Valley since 1997. During these years, we have come to understand that recycling cannot exist as a stand-alone operation; rather, it must integrate with well managed waste program.

Mailing Address: PO Box 1193, Driggs, ID 83422
